ADVISOR

Mr. Jack

Essex County Vocational and Technical High School

Bloomfield, New Jersey

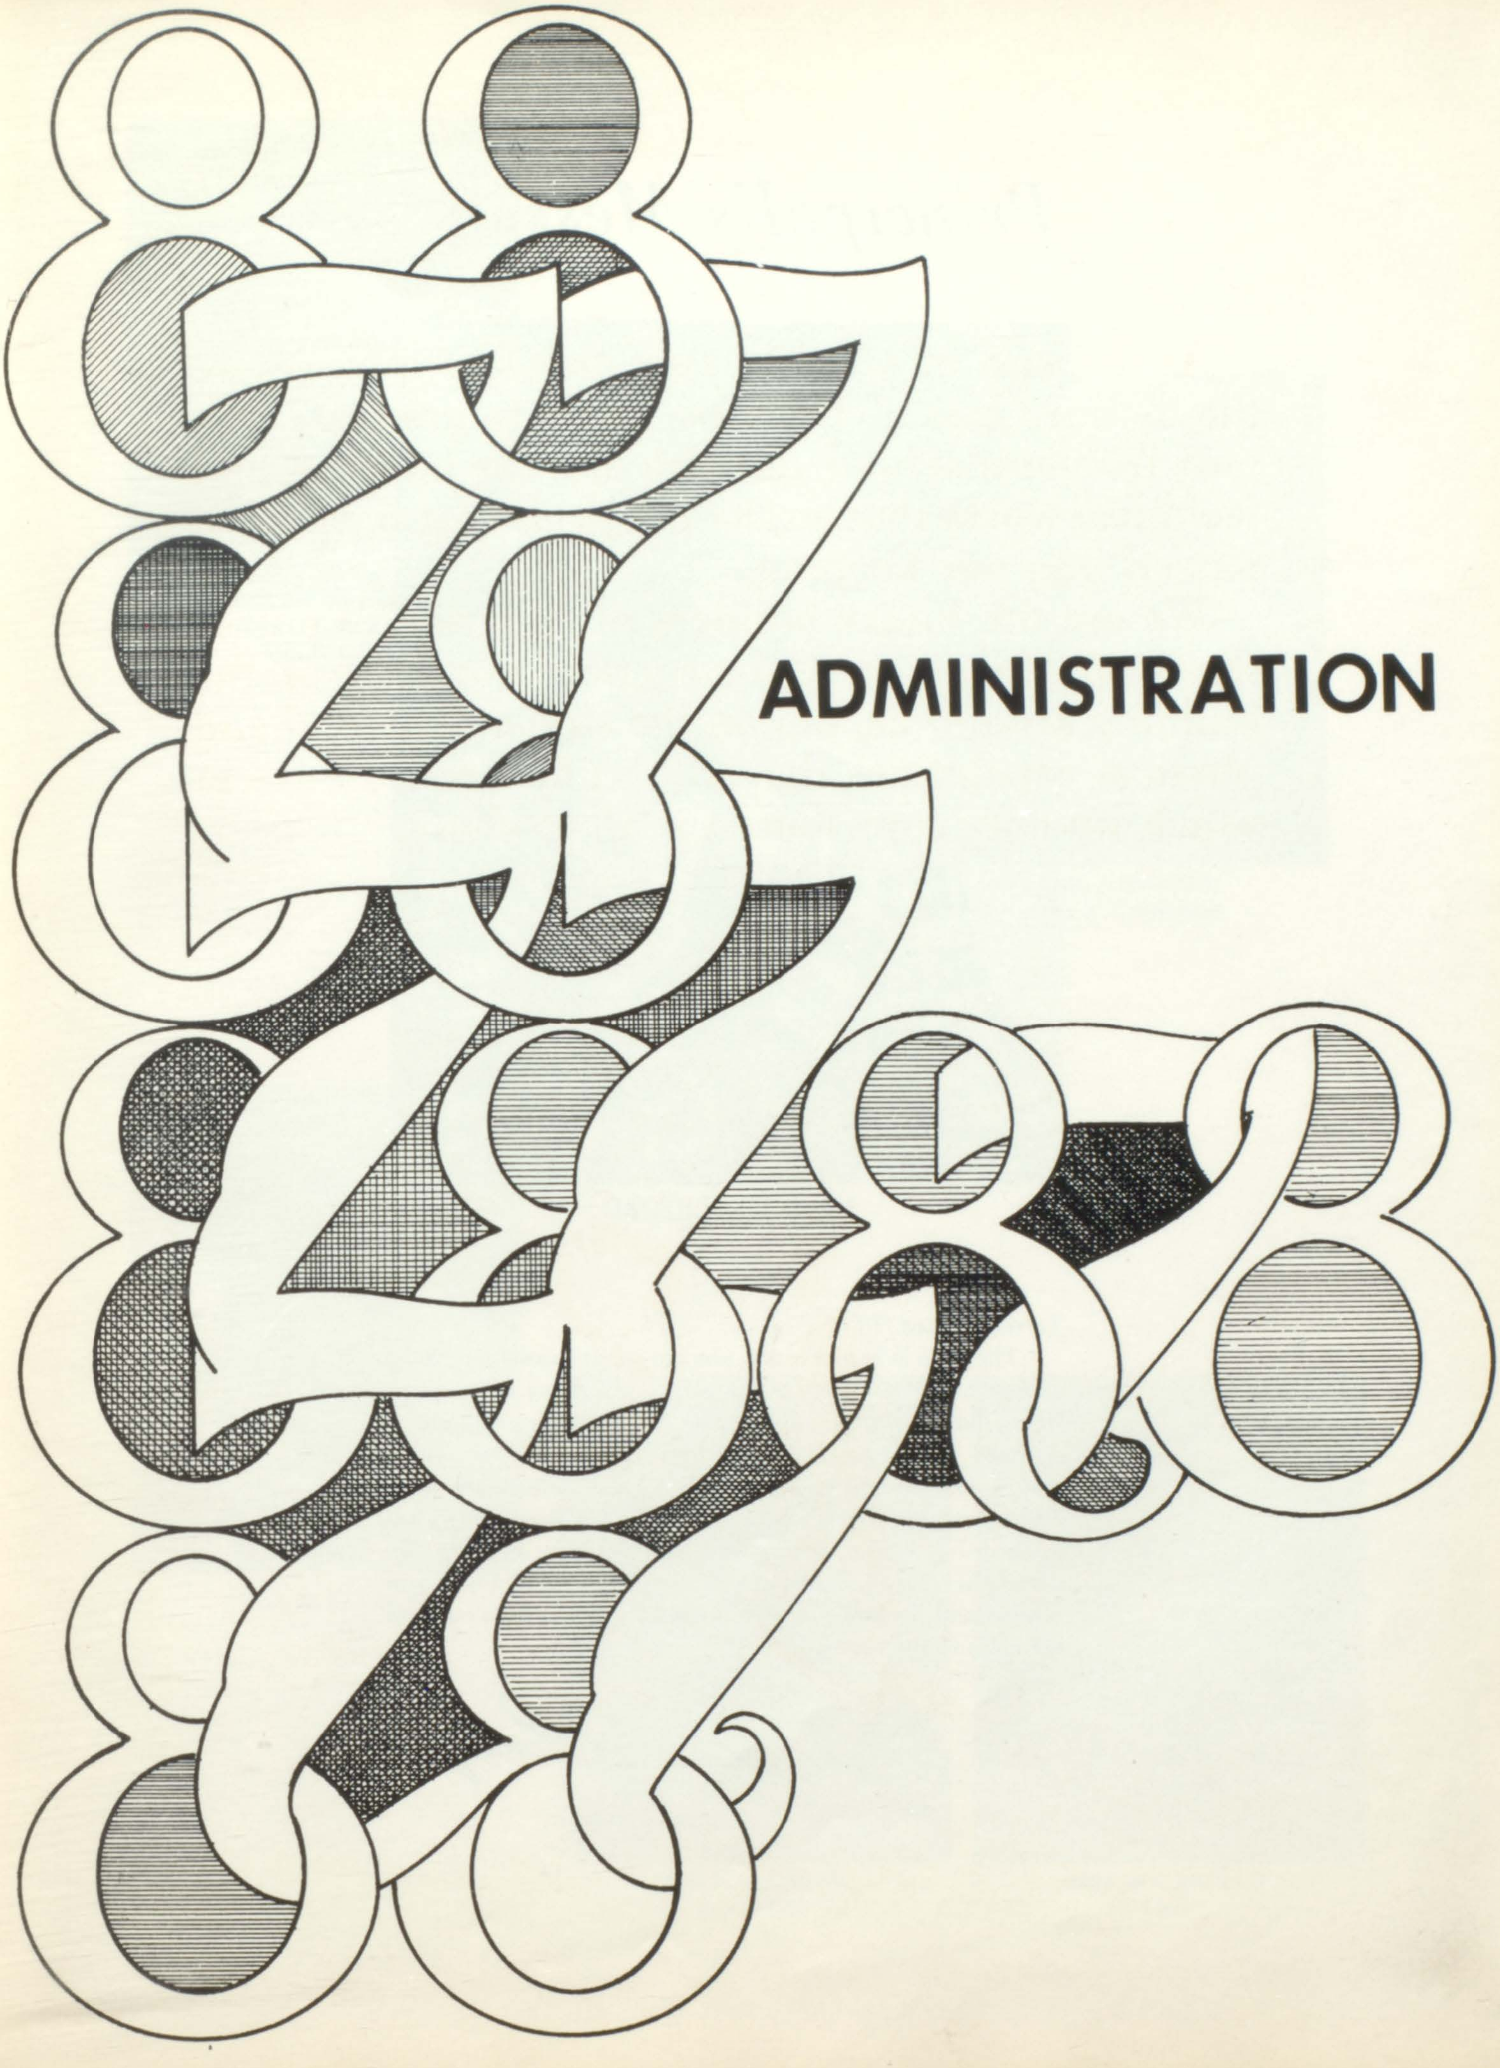

1978

Acknowledgement

As the end of another year draws to a close, we the Senior Class of 1978 are about to graduate, not only from our school, but also into the business and technical world that awaits the skills that have been passed into our keeping.

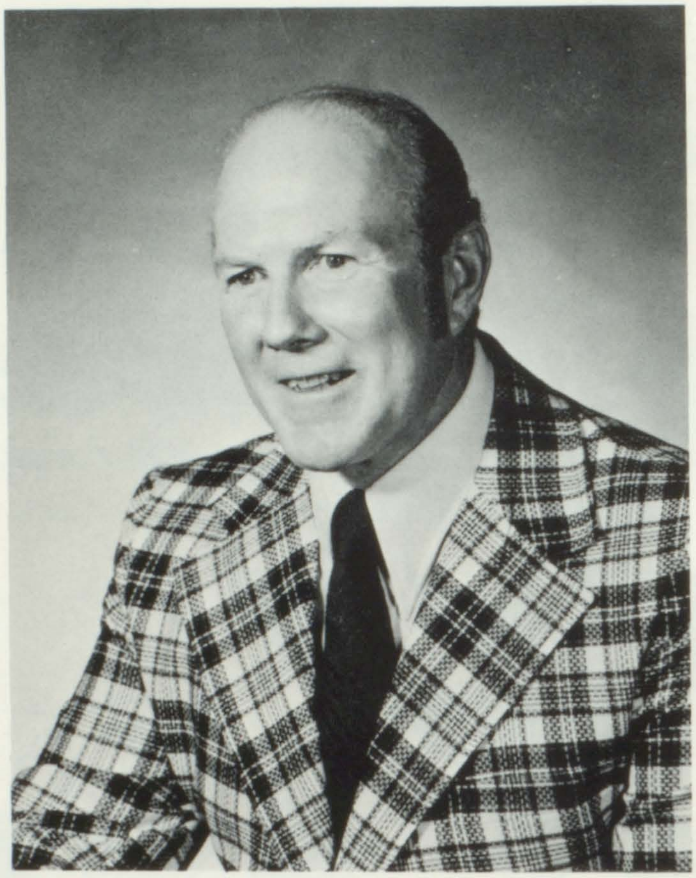

We are the future builders of America. We base then our theme on Construction not only of the building around us, but on the students mental and physical capabilities that will build a new future in which we may contribute for all to share.

ADMINISTRATION

Principal's Message

MR. E. J. ROCHFORD

To the Class of '78

The time is here. Finally, you are about to graduate. Most of you have been with us for four years, some three years. Where did the time go? Remember the 9th grade explorations in shop? You began to major in your 10th year. Seems like only a few months ago that you worried through the 11th grade. Now it's over. You are on your own from here. Your teachers feel confident that you will find your niche in life. I am content that we helped you to find your way. I wish you success and happiness and look forward to seeing you soon again. Congratulations!

Edward J. Rochford
